PROFILE

Aspiring Software Engineer with experience in the development of full-stack applications and cloud deployment using Amazon Web Services. Proficient in programming languages such as C++, Python, Java, and JavaScript, as well as experience with Linux, Git, CI/CD, and scalable system development. Passionate about developing cloud-native, highly available, and scalable applications.

WORK EXPERIENCE

BRAJWASI BROTHERS, *Freelance Web Developer*

Aug 2025 – Sep 2025

- Developed responsive and accessible web applications using HTML5, CSS3, JavaScript, React.js, and Tailwind CSS, while building reusable components, API integration and implementing dynamic UI features to enhance performance and user experience.
- Delivered multiple client projects including food website for Brajwasi Brothers Company and Codeless Solution for different clients, ensuring timely delivery and alignment with customer requirements.
- Managed version control using GitHub and deployed applications on Vercel, collaborating remotely with clients to gather requirements and implement feedback.

EDUCATION

B.TECH COMPUTER SCIENCE AND ENGINEERING

Aug 2023 – Present

Bennett University, Greater Noida

Expected June 2027 • CGPA: 8.27

TECHNICAL SKILLS

Languages:	C++, JavaScript, Python, Java
Frontend:	React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend:	Node.js, Express.js, REST APIs
Cloud & DevOps	AWS (EC2, S3, IAM), Docker, Cloudinary
Database:	MongoDB, SQL
Tools:	Git, GitHub, Vercel

PROJECTS

YUVA YOJNA AI CAREER RECOMMENDATION PLATFORM, (*Next.js, Google OAuth, AI Technologies*)

- Developed an innovative AI-driven career platform using Next.js, automating resume generation and job matching processes with precision targeting.
- Implemented sophisticated LinkedIn data scraping with Puppeteer, extracting skills, experience, and achievements to provide personalized job suggestions with 85% relevance.
- Integrated ATS-friendly resume optimization capabilities, leveraging AI-based resume parsing to match job descriptions and improve applicant success rates by 40%.
- Enhanced platform security & scalability with Google OAuth authentication and cloud deployment strategies, ensuring seamless user access and robust data protection.

AI RESUME SCREENING & ALUMNI REFERRAL PLATFORM, (*NEXT JS, Node JS, MongoDB, AI API, AWS EC2*)

- Developed a multi-role SaaS application that enables AI resume screening and alumni referral.
- Developed a resume parsing engine that matches the job descriptions with the candidate resume, which gives a relevance score to the candidate.
- Developed a ranking engine that uses an AI score, experience weightage, and alumni feedback.
- Deployed the application on AWS EC2 as a production-ready application.
- Developed a recruiter analytics dashboard that enables recruiters to filter the shortlisted resumes.

ACHIEVEMENTS & CERTIFICATES

DSA: Solved 400+ problems on LeetCode, GFG and CodeChef
Projects: Built and deployed 10+ live projects solving real-world problems
Hackathons: Winner – BU Smart Hackathon 2024 (420+ teams)
Hackathons: Winner – BU Smart Hackathon 2025 (620+ teams)
